About

Software Engineering undergraduate at the Open University of Sri Lanka with hands-on experience in both frontend and backend development. Built mobile and web applications using Java, React and Flutter. I am interested in developing practical, user-focused applications and improving full-stack development skills.

Education

B.S.E (Hons) in Software Engineering Open University of Sri Lanka (OUSL)

2023 – Expected 2027

- **Current Status:** 3rd Year Undergraduate.
- **Relevant Coursework:** Python Programming, Android App Design, Database Management Systems (MySQL), Web Design & Development, Data Structures.

Technical Skills

- **Languages:** Java, JavaScript, Python, SQL
- **Frontend:** React.js, HTML, CSS, Tailwind CSS
- **Backend (Basic):** Node.js, Express
- **Databases:** MySQL
- **Tools:** Git, GitHub, VS Code

Technical Projects

CashTag – Mobile Expense Tracker

Android Studio | Java | XML

- Built an Android application to manage and categorize daily expenses
- Added OCR-based bill scanning to reduce manual data entry
- Designed simple UI and implemented local storage for offline use

DineEase – Restaurant Management System

React.js | Tailwind CSS | MySQL

- Developed a web application for managing restaurant orders and menus
- Built responsive frontend using React
- Designed MySQL database for handling menu and order data

VoltPlan SL – Smart Electricity Budgeting App

Flutter | Dart | Firebase | Hive

- Built a mobile app to help users in Sri Lanka plan and optimize electricity usage based on tariff slabs
- Implemented appliance tracking system with power consumption estimation
- Integrated Firebase Firestore to update electricity tariffs without app updates

AI & Python Development

Python | Data Processing | Model Training

- Built and trained simple machine learning models using Python.
- Explored custom AI model training for task specific applications

Key Strengths

- Problem solving through practical projects
- Ability to work on both frontend and backend tasks
- Basic understanding of database design and queries
- Basic AI Model Development and Training
